

Lacrimus Rex

Region	D.O. Ca Rioja
Varieties	75% Garnacha 25% Graciano

VIÑEDO: Situated on Cidacos's Valley, the oldest soil from Rioja and one of the oldest in Europe, it is the valley with the most dinosaur sites in Europe.

Garnacha vines are older than **60 years old**, and the **Graciano** vines- 30 year old- are sited on a **sun-side slope**, as consequence we obtain more matured and less acidic Graciano.

ELABORATION: The Garnacha vinification process totally differs with the Graciano. In the garnacha process we avoid any processes which could raise the oxygen level on the wine, the Graciano variety gives structure and complexity. The blend with the Graciano is not done until the alcoholic fermentation is finished, The blend undergoes malolactic fermentation. **Aging is done on 500, 300 and 225 litres new barrels from French and American oak for 9 months.**

ANALYSE	
Alcohol	14 %
Acidity	4,6 g/l
Sugar	2,3 g/l

TASTING:

Intense cherry colour, with purple shades. High aromatic intensity. Silky with long aftertaste to red fruits and chocolate. , flowers and spices are combined

PAIRING:
